Gen Z — the first generation officially dubbed dumber than the last

By [Jeanne Erickson](#)

Published Feb. 7, 2026, 6:24 a.m. ET

“They’re the first generation in modern history to score lower on standardized academic tests than the one before it,” [Dr. Jared Cooney Horvath, 43](#), “They underperformed on basically every cognitive measure, from basic attention, memory, literacy, numeracy, executive function and general IQ.”

So what happened that caused an entire age group to bomb test scores?

Horvath, [who studied reams of data from standardized academic tests](#), told Congress that Z’s struggles stem from the fact that they’re the first generation to grow up with constant screen time. And it’s no substitute for real learning.

Understand The Impacts Of The Digital SAT & ACT

QUIZ: Are SAT & ACT Scores Still Important?

- (A) No**, the media told me SAT & ACT scores aren't important anymore.
- (B) No**, colleges are now test-optional so SAT & ACT scores don't matter.
- (C) Yes**, but scores only affect scholarships, not college admissions.
- (D) Yes**, SAT & ACT scores still impact college admissions & scholarships.

Answer: (D)

 **Yes, SAT & ACT scores still impact college admissions & scholarships.**

- Remember when the media dismissed the importance of the SAT & ACT?
- Here's why the media was wrong...

3 KEY REASONS

3 Key Reasons To Take The Digital SAT & ACT

#1: SAT & ACT Scores Impact Admissions At “Test-Optional” Colleges

Acceptance rates at **test-optional colleges** are significantly higher (**often 2-3x**) for students who submit test scores than for students who do not.

#2: SAT & ACT Scores Impact Merit-Based Scholarships

If your student does not have a test score, you will not be considered for **billions of dollars in scholarships** from colleges and private companies.

#3: SAT & ACT Scores Required Again At Most Top Universities

Most top colleges have reinstated SAT & ACT score requirements for admission, including at all Ivy League universities!

Solve Math Problems Without Algebra On Digital SAT & ACT Math

Digital SAT & ACT Math Practice Problem

Ex

$$2x^2 + 6x = 20$$

What is the positive solution to the given equation?

A) 2

B) 5

C) $\frac{2}{5}$

D) $\frac{5}{2}$

**You Could Solve With
Factoring Quadratic Algebra...**

**Or You Could Solve With
Prep Expert Strategy TAC...**

Test Answer Choices (TAC)

 **TAC means to substitute the answer choices back into the problem**

- **Test** each answer choice with the original algebraic expression
- **Test** to see which answer choice works!
- **Test** when variables are in the problem and numbers are in the answers

High School Math & Khan Academy

Has your student learned this in high school?

- TAC allows you to bypass traditional algebra on SAT & ACT Math problems
- Why? Takes advantage of multiple-choice nature of the Digital SAT & ACT
- That's why algebra teachers don't typically give multiple-choice tests
- You could just skip the traditional algebra by testing the answer choices
- Guess what? Digital SAT & ACT Math questions are multiple-choice!
- Khan Academy also does not teach strategies such as this!
- These are the types of strategies your child learns in Prep Expert courses

Identify Specific Answer Choices To Avoid On Digital SAT & ACT Reading

Avoid Extreme “-ly” Adverbs in SAT & ACT Reading

Answers with extreme adverbs are incorrect on SAT & ACT Reading

- An adverb modifies a verb, an adjective, or another adverb
- Typically, adverbs end in the suffix “-ly”
- “Extreme adverbs” signal a significant degree or extent of something
- Answers that contain extreme adverbs are often incorrect

Extreme “-ly” Adverbs

Incorrect On SAT & ACT Reading Questions

Broadly	Largely
Closely	Overly
Considerably	Profoundly
Deeply	Severely
Elaborately	Significantly
Extensively	Substantially
Greatly	Vastly
Heavily	Widely

Text 1

In a study, researchers discovered that giving people compliments about their abilities and talents can actually increase their performance in the future. This is known as the “compliment effect,” and it is thought to work by boosting people’s confidence and motivation.

Text 2

While the “compliment effect” is certainly an interesting phenomenon, researchers caution that it is not a universal truth. In some cases, too many compliments can actually backfire and make people less motivated. Additionally, the type of compliment matters – a compliment on a person’s effort is more effective than a compliment on their inherent abilities

Based on the texts, what would the author of Text 2 most likely say about Text 1’s characterization of the “compliment effect”?

- A) It is overly simplistic given the complexities of human motivation.
- B) It is accurate, but lacks the nuance of certain limitations.
- C) It is substantially exaggerated, with too much emphasis on the positive effects of compliments.
- D) It is broadly misleading, with no mention of the negative effects of compliments.

Before 12th Grade

★ **The PSAT Is Your Golden Ticket!**

PSAT = NMSQT (National Merit Scholarship Qualifying Test)

 If your child scores high on the PSAT, they will qualify for National Merit

- **Benefit #1:** Excellent award for college applications & summer programs
- **Benefit #2:** National Merit \$2500 Scholarship to any college you want
- **Benefit #3:** 100+ colleges offer full-tuition, half, and quarter scholarships

Here's The Catch!

 **You can only take the PSAT for National Merit 1 time: Fall of 11th Grade**

- **12th Graders:** There are no more chances to try to get National Merit.
- **11th Graders:** You must focus on scoring high on the PSAT in the Fall!
- **10th Graders:** You can take the PSAT-10 for practice (doesn't count)
- **8th/9th Graders:** You can take PSAT-8/9 for practice (doesn't count)

2-Hour PSAT Exam = Dozens of \$100,000+ Scholarships

 **The Digital PSAT is almost identical to the Digital SAT just a little easier.**

- Start your student's Digital SAT prep in 8th, 9th, and 10th Grade
- They will be ready to ace the Digital PSAT **by Fall of 11th Grade**
- Why do counselors say to wait for SAT prep until Spring of 11th Grade?

2 Keys To Winning Scholarships

Scholarship Key #1: Apply To Local Scholarships

Apply for scholarships local to your city or state

- National Scholarships often have 100,000+ applications (i.e. Lottery)
- Local Scholarships → Fewer Applications → Higher Chance of Winning
- Search for local scholarships in your area (city and state) on Google
- Local Scholarships do not mean you need to go to in-state for college

National Honor Society Scholarship	\$3,200–\$25,000	Over 600

Key #2: Apply To Colleges Offering Merit-Based Scholarships

 **It is a mistake if you only apply to the Ivy League Universities!**

- Why? Ivy League Universities do not offer merit-based scholarships
- If your family does not qualify for need-based aid, you get \$0 from Ivies.
- You must also apply to colleges that offer merit-based scholarships!
- Most of the time, there is no separate application for merit scholarships
- High school seniors with good grades, test scores, and extracurriculars are often just automatically offered half-tuition and full-tuition scholarships!

Prep Expert Digital SAT, ACT, & PSAT Course Reviews

Giuseppe Olsen ★★★★★

“

UNIQUELY INSTRUCTIVE! After taking this course, not only am I more confident and prepared to tackle the SAT, but I feel like I have an edge — an edge that enables me to succeed on the SAT and in life. A standout aspect of the program was my instructor, Ilia

Kolmagorov, whose expertise and targeted strategies helped improve my scores drastically. I loved the course; its format was ideal for reinforcing my learning and ensuring I didn't feel overwhelmed. Well worth the time and effort. Great job PrepExpert!

“

I'm alejandra sweeney, and i took the 6 week prep course, my teachers name is Ilia Kolmogorov and he was such a good teacher. he reviewed the topics very well and if we were confused he would explain the topic again. i started off with a 900 and my final score being 1200. I really enjoyed this course not only as it helped me grow academically, though also learn about myself and how seriously i take my academics.

Izzy Olyer ★★★★★ 

Kevin Parrish was a great instructor who helped me study for the [PSAT](#) through the course. He's very knowledgeable and experienced, which made the lessons thorough and easy to follow. His way of presenting and working through problems is very helpful. After taking the course I noticed many of the problems I had struggled with before had simple solutions, and I increased my score on the [PSAT](#) by 220 [points](#) in four weeks.

Aubrey ★★★★★

I am absolutely thrilled with the results I achieved through the PrepExpert ACT courses. Thanks to the expert guidance of Ilia Kolmagrov, my ACT score surged ELEVEN POINTS in just a few weeks. The tutor and mentor teaching approach is engaging—my tutors explained difficult concepts in ways that were very easy for my mind to understand. They shared strategic tips that made a real difference. The structured curriculum, along with personalized feedback and practice, kept me not only focused but also motivated throughout the program. If you're looking to make a significant jump in your ACT score, PrepExpert is an unbeatable choice. It truly transformed my preparation and opened new doors for my future. The only regret I have is not investing in this program sooner!

“

My instructor (Llia Kolmagorov) was excellent throughout all 12 classes and always kept me engaged. Going along with that, the class never got boring. Although 3 hours seems like a lot, every minute is used very well and it goes by quickly. My score improved 380 points from the start and all of the content was very helpful and absolutely proved to work. I think that all the info and strategies given really stuck with me and made tons of sense especially after all the clarification and explanations from the instructors. The entire course felt super organized and well put together. I would definitely recommend this to anyone wishing to improve their SAT scores as it did just that for me.

“

My instructor's name was Kevin Parrish, and I can confidently say that he was one of the best instructors I have ever had, not only in SAT preparation, but also in any and all other subjects. Not only did he explain the material clearly and in depth, whether it was reading and writing or mathematics, Kevin even sacrificed his own break time to work on other students' problem requests. The most impressive thing, though, was Kevin's dedication to his students' success through working outside of his job; he compiled an astounding compilation of practice problems (both reading and writing and mathematics) and their solutions on PDFs to foster confidence in his students' academic abilities through continued practice. He improved my score from a 1330 to a 1540, and I could not be more grateful. However, the unexpected result of this course was the improvement not only in my SAT score, but also in my writing abilities and problem-solving skills. Now, I grasp material in school faster and thus can spend less time studying for exams. To conclude, I know that when I receive my SAT score back, it will be solely attributed to Kevin Parrish's passion and expertise in tutoring.

“

Dr. Shaan Patel's Prep Expert All Access Pass is nothing short of exceptional. As an instructor with a perfect SAT score and a personal history of overcoming score challenges, his credibility is unmatched. Under Dr. Patel's guidance, I experienced an impressive 500+ point improvement, with over 200 points gained just within the 7-week Founder's digital SAT course. The strategic approach to content and test-taking strategies, combined with Dr.

Patel's engaging teaching style, made the learning experience effective and enjoyable. The accessibility of the All Access Pass allowed me to revisit lessons at my own pace, ensuring targeted improvement in weak areas. So, if you're seeking a transformative SAT preparation experience, Prep Expert with Dr. Shaan Patel is the way to go. Highly recommended!

Gen Z — the first generation officially dubbed dumber than the last

By Jeanne B...

Published Feb 24 a.m.

"They're the first generation in modern history to score lower on standardized academic tests than the one before them," says Jooney Horvath, 43,

"They understand literally every cognitive process: attention, memory, executive function and general intelligence."

So what's behind that? Can the entire age group be blamed for low test scores?

Horvath, who studied reams of data from standardized academic tests, told Congress that Z's struggles stem from the fact that they're the first generation to grow up with constant screen time. And it's no substitute for real learning.
